

Why The Great 4WD of China is Great.

The X240 4WD.

Great Wall

Great Wall.

China, already a global economic & manufacturing powerhouse, has this year replaced the USA as the world's largest, most dynamic automotive market.

Great Wall Motors is the first privately owned automotive company listed on the Hong Kong stock exchange and has enjoyed more than 10 years of rapid growth. It has built a strong reputation for producing tough and reliable vehicles.

Employing over 22,000 people, exporting to more than 120 countries, investing heavily in state-of-the-art technology and with a strong research and

development program, it's not surprising that Great Wall Motors is producing world class vehicles that represent uncompromising value.

Now New Zealand has an opportunity to enjoy these great vehicles with the launch of the Great Wall X240 4WD.

Add to that a national dealer network with some of New Zealand's most respected names, a 3 year/100,000km warranty, a 24 hour roadside assistance program, and there's really only one word to describe this opportunity to drive The Great 4WD of China... **Great.**
